Version 1.0

Purpose of a Brand Guideline

This brand guideline is intended to protect the integrity of the ÁNIMA brand and sub-brands so that future brand collateral stays consistent and maintains the brand identity. All future brand applications should refer back to this guide to ensure the branding remains faithful to the hallmarks of the ÁNIMA visual identity. Following this

guide will translate into a cohesive branding system where all collateral looks on-brand. A brand is an attitude, a voice, and the mark it makes on the world. We developed a brand system that represents ÁNIMA core values, strengthens its communicational needs, and builds a cohesive experience.

I. Logo

Wordmark logos are all about simplicity. Words are the visual landmark of the brand and are fully loaded with significance. Inspired by the new perspective of the local culture mixed with a global perspective, we

wanted to give the ÁNIMA branding a unique, modern and international design. The result is the signature logo that symbolizes the spirit of South East Asia for the audience around the world.

II. Construction Guide

The diagram on this page documents the geometrical construction of the logo icon. It's essential to maintain the proportions of the icon to maintain brand consistency.

III. Safe Area

In order to ensure legibility, the logo must always have enough clear space surrounding it. The clear space area is always to 50% of the logomark in ÁNIMA. This space must always be free of any type or graphics.

If the logo is ever placed on top of an image the clear space must still be respected, the image should have not any significant contrast within the clear space.

IV. Sub-brand Logo

ÁNIMA has multiple sub-brands. Logos for each sub-brand replace the word Group with the name of the sub-brand such as Wellness, Nature, Art and Community.

As ÁNIMA adds future divisions, new sub-brands will be created following this template to represent these divisions.

I. Primary Brand Colors

Color plays a vital role for ÁNIMA—it affects how people perceive the brand and how the sub-brands communicate to each other. The brand colors have been chosen to represent reliability and progress. It is imperative that a high level of precision and consistency be maintained throughout our communication

materials. ÁNIMA colors are based on the PANTONE Color Standard. For color matching, refer printers and other suppliers to the current editions of PANTONE Color Formula Guide.

II. Primary Brand Logo Usage

The ÁNIMA logo can be used in every color of the brand's palette. When a color background is used, the logotype should always be applied in the indicated color for maximum impact

and clarity. Logo and wordmark should always use the same brand approved color. The following versions are available for use.

Typography

- I. Primary Typeface
- II. Uses

I. Primary Typeface

The use and style of typography is equally important to the ÁNIMA brand as the identity and color. Typography gives voice to the brand — speaking to the distinctly different characters, habits and behaviors of the audience. Cardo is our primary typeface.

II. Uses

The classic, serif style of the Made Mirage font, elevates the brand's identity and reinforces its positioning as a luxury, 5-star hotel. This classic typeface is offset by the modern, sans serif style

of the Cardo font, to reveal and strengthen ÁNIMA Village modern and vibrant appeal.

KEY CONCEPTS

- Sophisticated
- Natural photography (no posed models)
- Enjoying the moment
- No direct eye contact with the camera
- Spontaneous
- Elements of nature included
- Tones that respect the color palette
- Use of distant planes
- Creating an idea of magnitude

The images should be clean and natural, always reflecting a modern and airy atmosphere. Lifestyle images should be able to show the contrast between clean,

open spaces and nature, a mix of styles between calm oceanfront and vibrant sunny spirit. Images can be a powerful creative tool that helps project the ÁNIMA brand.
